## FROM THE TABLE 2015-2016

The FTA and the District met on January 28 to review and finalize the specific framework details and modification options. Both teams clarified any open items left on the table. We began the arduous task of converting the concepts to specific contract language in Article 14 of the Collective Bargaining Agreement. We anticipate having the information available for members the end of the second week of February. District wide informational meetings are still on track for mid-February.

The next sessions are scheduled as follows:
